Environmental policy,
goals and targets

2018 – 2019

“ Dynamic takes its corporate responsibility seriously. We consider ourselves to be at the forefront of our industry when it comes to environmental awareness. ” – Tony Scott, CEO

Dynamic International Freight Services Limited recognises that it has a responsibility to the environment beyond legal and regulatory requirements.

We are committed to reducing our environmental impact and continually improving our environmental performance as an integral part of our business strategy and operating methods.

We will encourage customers, suppliers and other stakeholders to do the same.

“Dynamic takes its corporate responsibility seriously. We consider ourselves to be at the forefront of our industry when it comes to environmental awareness. We have introduced environmentally friendly hand dryers, new double glazing, low energy LED lighting and are in the process of rolling out electric vehicles across our fleet.

We will continue to favour greener over lower-cost solutions and do all we can to assist our customers with minimising their carbon emissions” – Tony Scott, CEO

Statistics, facts and figures

- ▶ 10% of the European Union’s GDP is generated by logistics and transport activities
- ▶ 13.1% of global greenhouse gas (GHG) emissions are caused by the transport sector
- ▶ Within the second figure 60% of all emissions are road freight generated.

Within the transport chain there are two types of emissions

- ▶ **Direct** — which relate to those activities directly undertaken by the freight forwarder and are within their capacity to manage
- ▶ **Indirect** — relating to emissions emitted by other parties within the supply chain

Managing the use of these resources is both financially and socially responsible, and will bring down the cost of green logistics.

BIFA (British International Freight Association) chose the following simple but practical definition of Sustainable logistics as:

“A planned and systematic approach to reduce the environmental impact of a company’s activities by improving the efficiency of processes, reducing the use of energy, water and fossil fuel when providing transport and logistics services”.

Responsibility

Gavin Scoular, Finance Director, is responsible for ensuring that this environmental policy is implemented, however, all employees have a responsibility in their area to ensure that the aims and objectives of this policy are met.

Paper

We will:

- ▶ Minimise the use of paper in the office.
- ▶ Seek to buy recycled and recyclable paper products.
- ▶ Reuse and recycle all paper where possible.

Energy and water

We will seek to:

- ▶ Reduce the amount of energy used as much as possible.
- ▶ Switch off lights and electrical equipment when not in use.
- ▶ Adjust heating with energy consumption in mind.
- ▶ Take energy consumption and efficiency of new products into account when purchasing them.

Office supplies

We will:

- ▶ Evaluate if the need can be met in another way.
- ▶ Evaluate if renting or sharing is an option before purchasing equipment.
- ▶ Evaluate the environmental impact of any new products we intend to purchase.
- ▶ Favour more environmentally friendly and efficient products wherever possible.
- ▶ Reuse and recycle everything we are able to.

Transportation

We will:

- ▶ Reduce the need to travel, restricting to necessity trips only.

- ▶ Promote the use of travel alternatives such as e-mail or video/phone conferencing.
- ▶ Make additional efforts to accommodate the needs of those using public transport or bicycles.
- ▶ Favour 'green' vehicles and maintain them rigorously to ensure ongoing efficiency.

Maintenance and cleaning

We will:

- ▶ Use cleaning materials that are as environmentally friendly as possible.
- ▶ Use materials in any office refurbishment that are as environmentally friendly as possible.
- ▶ Only use licensed and appropriate organisations to dispose of waste.

Monitoring and improvement

We will:

- ▶ Comply with all relevant regulatory requirements.
- ▶ Continually improve and monitor environmental performance.
- ▶ Continually improve and reduce environmental impacts.
- ▶ Incorporate environmental factors into business decisions.
- ▶ Increase employee awareness through training.
- ▶ Review this policy and any related business issues at weekly management meetings.

Culture

We will:

- ▶ Update this policy at least once annually in consultation with staff and other stakeholders where necessary.

- ▶ Provide staff with relevant environmental training.
- ▶ Work with suppliers, contractors and subcontractors to improve their environmental performance.
- ▶ Use local labour and materials where available to reduce CO2 and help the community.

Policy aims

We aim to...

- ▶ ...comply with or exceed all relevant regulatory requirements.
- ▶ ...continually monitor and to improve our environmental stewardship performance.
- ▶ ...continually reduce our negative environmental impact, and assist our suppliers to do the same.
- ▶ ...consider environmental impact when making commercial decisions.
- ▶ ...increase employee awareness and training.

The management of Dynamic International Freight Services Limited will ensure that this Policy is reviewed regularly.

This Environmental Policy Statement has been approved & authorised by: Gavin Scoular – Finance Director.
